COMPANY PROFILE

Automobile Engineering & Technical Services (AETS)

OUR BACKGROUND

Automobile Engineering and Technical Services is fully owned Ghanaian Company.

Our workshops offer servicing, diagnostics, mechanical repairs, collision repair and spraying works of all vehicle makes as a credible alternative to main dealerships.

We focus on the highest level of customer service, working to the Trading standards approved codes of practice.

Our workshops provide comprehensive business package, supported by international networking, membership initiatives and technical support.

Automobile Engineering & Technical Services (AETS)

OUR VISION & MISSION

OUR VISION

To be the established leader among independent garages (workshop), satisfying the expectations of customers and shareholders, providing a full range of cost efficient and high quality services, through the optimization of information technology and efficient industry network.

OUR MISSION

To provide quick, efficient and reliable service to our customers on consistent basis.

Maintain a warm and vibrant relationship with our customers to ensure that we understand their needs and are in the position to serve their interests.

Provide flexible operating hours to serve the diverse needs of our customers

MANAGEMENT

Mr. Ebenezer Dankyi, Technical Director and leader of business, is an Automotive Engineer by profession and holds MSc Degree in Automotive Engineering.

He served in various capacities in the automobile maintenance industry spanning over twenty-five years. He is ably supported by other graduates - Automotive Engineers, Technicians and Administrators for the day to day running of the service and Training Centres.

He was awarded the BIZZ BUSINESS EXCELLENCE AWARD, and the WORLD LEADER BUSINESSPERSON AWARD in 2020 by a Houston based organisation, World Confederation of Business for his management creativity, achievement, product/service quality and innovations.

He also contributed to the development of Competency Based Curriculum of Automotive Mechatronics and establishment of Sector Skills Body for the Automotive Industry in Ghana under the auspices of NVTI/GTZ and COTVET in 2019 and 2020 respectively.

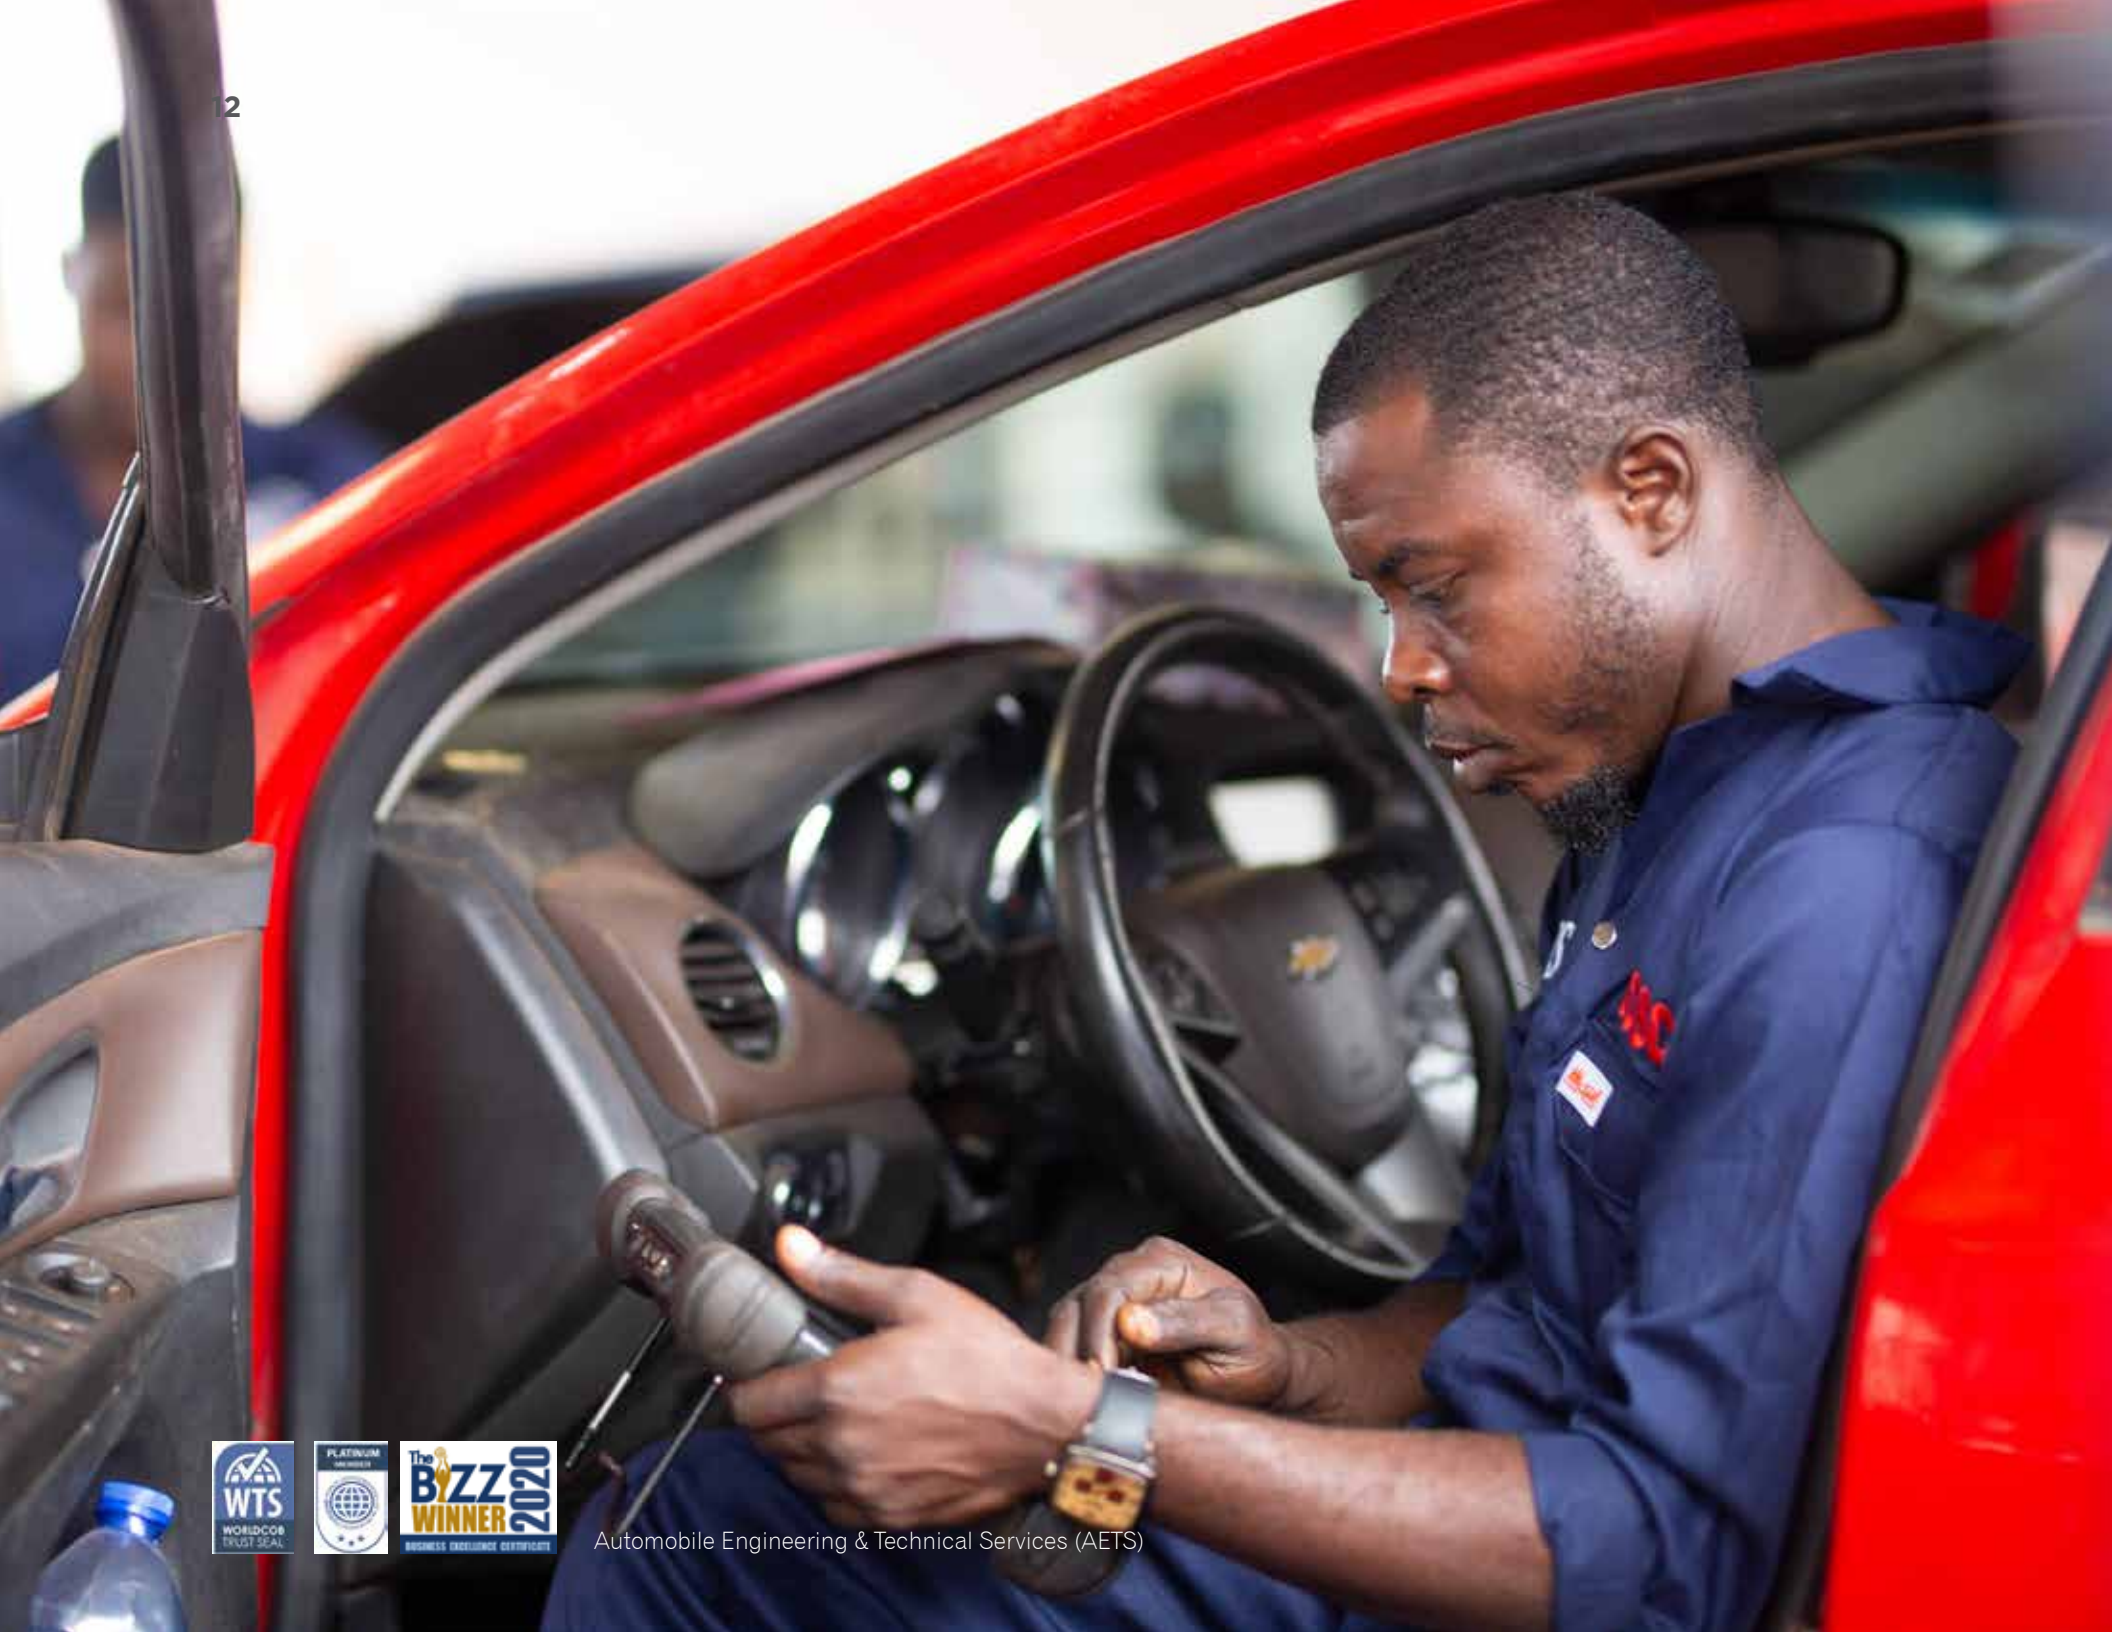

TECHNICAL DIRECTOR
MSc, B-TECH, HND, MVT 11&1, MVM

The workshops are centrally located and have the capacity to admit over forty vehicles daily. Our regular routine includes engine diagnosis, exhaust gas analysis, periodic maintenance, general electronics and engine mechanical repair works, brakes, suspension, etc.

Automobile Engineering & Technical Services (AETS)

SPRAY/PAINTING REPAIR

Automated Auto Oven Spray Machine Assembly

Body Preparation & Priming

Final Spray Works

AETS has one of the most advanced auto Oven Spray machine Assembly in country. This equipment, characterized by accuracy is suitable for perfect spray works during day and night operations.

COLLUSION & BODY REPAIR

AETS has one of the most advanced auto collision and Car Frame repair system in Ghana. Our auto body alignment and collision/frame repair machines, dent pulling and spot welding equipment ensure high quality repair of accident vehicles.

This equipment characterised by accuracy, is suitable and perfect for body shaping, maintenance, and repair of cars, SUV, minibuses, light and heavy trucks respectively.

Our regular service at this facility include: comprehensive repair of "Home used" accident vehicles, frame/chassis repair, dents and rust repair and Body Building.

AUTOMOTIVE SPARE PARTS

AETS partners with BOSCH Ghana for the supply of genuine automotive spare parts, chemicals and lubricants of good quality and under warranty. This partnership compliments our mandate to provide quick service delivery by cutting down cost and unnecessary delays resulting for parts acquisition.

MOBILE MAINTENANCE WORKSHOP

Our mobile workshop team is fully-equipped, not just for a breakdown service - but also to offer convenient and competitively priced vehicle servicing and fleet maintenance at your door step.

These services include:

- Car servicing
- Car repair
- Fleet maintenance
- Diagnostics and
- Pre Purchase Inspection

TRAINING & CONSULTING SERVICE

We believe that vehicle maintenance management systems are to be studied and determined from an engineering point of view, based on vehicle system structures and conditions under which they are diagnosed, repaired and used.

Our training workshops are carefully designed to include modules that are critical and relevant to the Ghanaian industry context with focus on Automotive Technicians, Mechanics and Drivers.

These trainings are opened to the corporate world and to the general public.

OUR CLIENTELE

NETWORK OF EXCLUSIVE CLIENTS (BUSINESSES AND ORGANISATIONS)

We serve a network of over fifty exclusive businesses and organisations including the Banks, Insurance Companies, MMDAs, Catering Service providers, Manufacturing and individuals within Greater Accra, Tema, Kasoa, Somanya and Koforidua catchment areas

TESTIMONIALS

A.C.P Rahik Mahama

AETS has been absolutely remarkable in their ability to respond promptly to any issue I've had, even on the most inconvenient days.

Their service is professional and they're honest and transparent in their dealings, and I highly recommend them.

Ps. Solomon Ayietey

Prompt and professional attention to all clients: I.C.T Expertise makes AETS a fully modern engineering company.

Mad. Dorethy A. Frimpong

AETS offers unique service: They use genuine parts, prices are good and their human relations is excellent. They also give technical technical advice and reasons for change of parts. Try and service your car with them. They are on top.

Mr. Peter Wih-Sika

AETS shows and exhibit professional competence in what they do. They indeed deliver quality and timeous work and customers are their utimate priority.
